WELCOME

We are glad to inform you that a Webinar on "Intellectual Property Rights: An Overview" will be held on October 7, 2020. A large number of scientists, researchers, teachers and students from all over India are expected to join the event. On behalf of the organizing committee we welcome you all to participate in this important event.

ZAKIR HUSAIN DELHI COLLEGE

Zakir Husain Delhi College, formerly known as 'Delhi College' is a constituent college of University of Delhi. The college has a history of more than three centuries when it was established as a Madrasa by the father of the first Nizam of Hyderabad, Ghaziuddin Khan in 1709. The long history of the college is intertwined with the history of the old city of Delhi and symbolizes the confluence of both traditional and modern cultures of Indian history. The history of the college has been of academic interest for a number of European and Indian scholars and many books have been written on the history of college.

INTELLECTUAL PROPERTY RIGHTS

Intellectual property rights (IPRs) are the legal rights which provide the creators protection for their original works like inventions, artistic works, formulations, and contrivances. IPRs are also crucial for a country to safeguard their precious wealth of indigenous and local traditional knowledge. IPRs allow creators or the owners of patents or trademark works to benefit from their own creations and to possess fully independent ownership for their innovation and creativity. Additionally, wealth generation, national development, promotion of innovation, and facilitation of better R&D culture are some of the other goals of IPR system. All these major needs for IPRs essentially include preventing plagiarism, illegal financial gains, and misuse by others. The functional domain of IPR invites legal laws to safeguard and motivate creative and innovative activities which gradually evolve with modern technologies. These legal rights ensure inventors the exclusive rights of dealing by increasing entry barriers, permitting avoidance of competition, allowing entry to a technical market, and generating steady incomes by license issuing. There is a dire need to understand and implement IPRs efficiently as these are essential components of economic policies of any developing country. The times are changing with the advent of new technologies and dominance of social media in our lives, and hence Intellectual Property Rights have been revisited and amended globally to account for the new normal. Therefore, the need for a webinar on IPRs issues, as there is tremendous scope for
