

ZAKIR HUSAIN DELHI COLLEGE

(UNIVERSITY OF DELHI)

NATIONAL CONFERENCE ON APPLICATION OF MATHEMATICAL TOOLS IN SOCIAL SCIENCES AND SCIENCES (ONLINE)

Advent of informational technology is a boon for all researchers working in various fields from humanities to sciences. It has advanced the methods of data collection, processing and visualization. Now a days, enormous data can be collected within no time. The data handling and interpretation requires a sound knowledge of statistical tools and mathematical modeling. Multiple facet analysis and interpretations for utmost clarity can be developed using traditional statistical tools supported by modern mathematical models. No research has been considered complete until and unless it employs proper statistical tool, thus sound knowledge of statistics and mathematical modelling is a must for qualitative or quantitative research. This online conference envisages recent advances in the field of mathematical modeling in social sciences and sciences and will nurture budding researchers by providing a platform to young minds to explore and learn from the peer group.

Inauguration by Prof Balaram Pani, Dean of Colleges, University of Delhi

Keynote Speaker Prof C S Lalitha, Head, Department of Mathematics, DU

Patron Prof. (Dr) M A Beg, Principal, Zakir Husain Delhi College

The 1st National Conference

OCTOBER 17-18, 2020

Kindly register by October 15, 2020.

Participants shall be given E-Certificate (No Charges).
