

Entrepreneurial Development Cell, ZHDC has organized number of seminars, workshops, and events to assist in developing entrepreneurship skills among students and channelise their ambitions towards becoming versatile entrepreneurs. Through official and informal programs, it aims to foster the growth of self-employment and entrepreneurship. On April 12, 2017, the cell organized a one-day workshop where Mr. Rishabh Lawania, founder and chief executive officer of Xeler8, shared his experiences and discussed the various sources of financing available to start-ups, special focus on venture capital. The guest Mr. Sanjay Vohra, Executive Director, ANDC inStart Business Incubator along with his students' start team encouraged students for starting their own ventures by sharing the story of their start-ups.
