

Tree Plantation by Garden Committee

The Garden and Greening committee took up the initiative to mark the Centenary Celebrations and Azadi Ka Amrit Mahotsav by planting three trees, Neem, Bargad and Peepal on the college campus. Principal Prof. Narendra Singh, faculty members and Gardeners (malis) of the college planted trees together and celebrated the event. Delhi monsoons would help saplings to grow into lush green trees in years to come and would be a constant reminder of this momentous time.

These three trees- Neem (*Azadirachta indica*), Bargad (*Ficus benghalensis*) and Peepal (*Ficus religiosa*) called Triveni have been planted together in the college campus by Principal Prof. Narendra Singh . These native trees are sturdy which will grow and flourish with ease in Delhi climate. On this occasion, Prof. Narender Singh motivated students to save the environment by planting trees in their neighbourhood as well. Looking forward to green and clean environment in times to come.
